Please select the quiz for which you would like to see statistics:

Or, [click here](#) to see activity for the last 7 days.

Once on this page, you have the option to access two different types of statistics:

- **Word level data** – This shows you each student’s word level data. For each quiz, you will see which words they have a good understanding of and which words they don’t.
- **Recent activity** – This allows you to see your students’ recent activity on Bedrock. See their most recent log in date and time, what block, topic and lesson they are currently on or have completed.

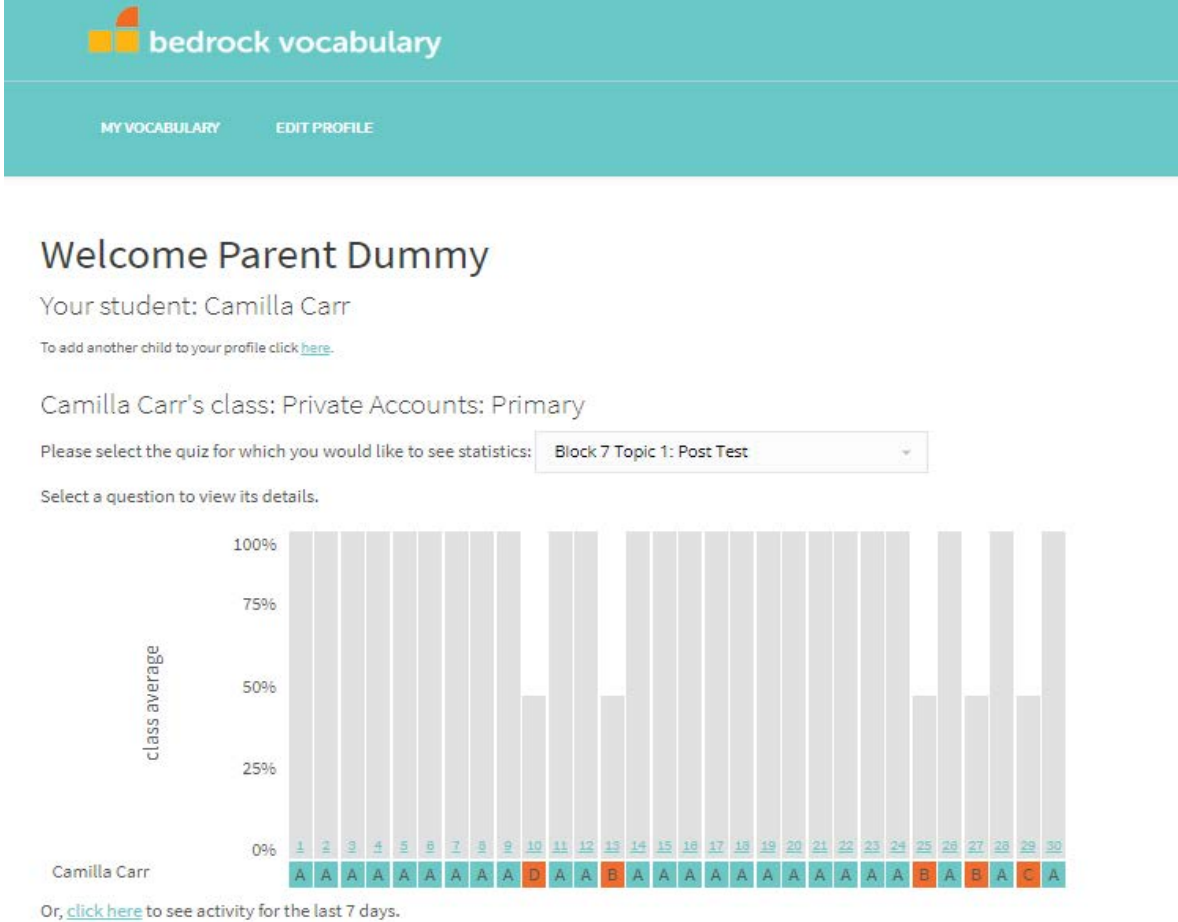

Word level data:

Your page will look like this:

The top of the graph shows overall understanding for each word.

Each number represents a specific word

The letters: A, B,C & D correspond to the answers your student has given.

Don't worry - the answer isn't always 'A'.

So, what if you want to know what word 21 is?

Word level data:

Click on each individual number and you will see this page.

Here you will see the word that your students are struggling with, alongside the answers your students were given.

As you can see, for question 10, the student thought that **D - talking to a teacher** was the correct answer.

Question 10

Which of the following is an example of **coping**?

- A - staying at school even if you feel sick
- B - going home because you feel so sick
- C - staying at home because you feel sick
- D - talking to a teacher
- E - (I don't know)

This information allows for you to provide your student with further instruction on the word 'coping'. This is all about moving beyond surface level to **deep, nuanced** comprehension.

What to do with this information?

- The point of this report is for you to understand which words your student is struggling with. This in-depth data allows for you to focus your instruction on certain words.
- We suggest using vocabulary notebook sheets (find them in your starter pack) to thoroughly explore the word.

Block 6 Topic 1: Journey to the Pole

- What topic and block they are on
- What lessons they have passed or started
- Their attainment in the most recent topic and post-test score

What to do with this information:

- Use this information to provide further vocabulary instruction based on the words in the topics your student is currently working on.
- Our vocabulary posters embed each taught word alongside their topic title.
- E.g if a student is struggling with some of the words from **Block 7 Topic 3: Richard Branson** – why not display a copy of this poster?
- Use the word level data to fill in some generic vocabulary notebooks sheets
